NEW YORK FINANCIAL DISTRICT PLACED UNDER HEAVY GUARD

FEAR THREATS MADE BY RADICALS

NEW YORK, November 9.—Twenty-five additional patrolmen, personally selected by Chief Inspector Lohay after a conference with Police Commissioner Knight, today were distributed throughout the financial district to guard banks and financial institutions.

While official announcement was lacking at police headquarters, it was understood that this action was taken because of threats alleged to have been made at recent meetings of radicals. At the same time the detective force in the Wall street district were greatly increased.

No statement was forthcoming from police officials as to whether there was any connection between today's action and that of last night when a heavy detail was sent to guard a Fifth Avenue apartment house in which lived Mrs. Edith Vanderbilt, Elmer Root and other prominent families. This detail was dispatched on receipt of a bomb warning telephoned to the house by an unidentified woman.

French War Hero To Pay Respects To U. S. Cabinet

WASHINGTON, D. C., November 9.—In Washington for a three days' visit Marshal Georges Robert Nivelle, former commander in chief of the French army, planned to pay his respects today to members of the cabinet and other government officials. He also was to be the guest of Secretary Baker at a luncheon to which cabinet members, General Pershing, Brigadier General Devens, M. March, chief of staff, and other members of the French embassy had been invited. Arrangements had been made for General Nivelle to visit Washington's tomb at Mount Vernon during the afternoon.

General Nivelle who is a member of the supreme war council, arrived in New York yesterday and immediately came to Washington.

New Low Price For Sugar

NEW YORK, November 9.—Have sugar dropped to 6-11 cents a pound, a new low for the season in the sugar market here today. The price reflects heavy stock in demand, and is a loss of more than 17 cents from the highest of the season's quotations last May. Trading was dull.

FOCH AND 'THE TIGER' CENTER OF DISCUSSION

PARIS, November 9.—Marshal Foch has become the center of an animated discussion which is occupying the attention of almost all other subjects. The main point turns on the relations of Marshal Foch and Premier Clemenceau in the crucial stages of the war and the circumstances leading to the marshal's elevation to the rank of commander in chief of all of the allied forces.

Marshal Foch has given his own version, declaring that he had only been appointed to the supreme command after Premier Clemenceau had yielded to the insistence of others, including Field Marshal Haig, the British commander, and asserting that his relations with Clemenceau were strained.

On behalf of M. Clemenceau, Andre Tardieu today replied to Marshal Foch, declaring that it was in fact Clemenceau who secured the supreme command for Foch and that Clemenceau was throughout the champion and defender of Foch instead of his enemy.

Dealing with the statement attributed to Foch that "M. Clemenceau only bowed and with full grace to my appointment as supreme commander," M. Tardieu offers the text of Foch's appointment written in the premier's hand.

"I was," says M. Tardieu, "French high commissioner to the United States at that time and I can say this: Since the preceding January, I had had instructions from Premier Clemenceau to work with the American government for the institution of a supreme command and if one put the question 'who?' the reply was 'Foch'."

M. Tardieu also reviewed at length Premier Clemenceau's course in the French chamber, making speeches in which the premier defeated Marshal Foch against attacks and strongly supported his military policies.

HERRICK AND HOOVER AMONG HARDING CABINET PROSPECTS

Left to right, above: Will Hays, Myron T. Herrick and Henry C. Wallace. Below: Herbert Hoover, Senator Boies Penrose and ex-Congressman James W. Good.

The list of "possibilities" for the cabinet to be named by Harding when he assumes the presidency grows daily. Myron T. Herrick, former U. S. ambassador to France, is among the more recent additions to the list. His knowledge of international affairs puts him in line for the portfolio of secretary of state. Chairman Will Hays of the Republican national committee, is talked of as a possibility for postmaster general or attorney general. Henry Wallace of Des Moines, publisher of "Wallace's Farmer," is mentioned for secretary of agriculture. Herbert Hoover is suggested as secretary of the interior. Senator Miles Poindexter is "named" for secretary of the navy. Ex-Congressman Good is talked of for secretary of the treasury.

BIG DROP IN PRICE OF MEN'S CLOTHING IN SPRING PREDICTED

CHICAGO, November 9.—Men's clothing for immediate delivery was offered buyers today at prices ten to fifty percent below present wholesale prices. Goods for spring and summer delivery were shown at prices ten to 33 1/3 percent under those of a year ago, and men's shirts and similar articles were shown at greatly reduced prices at the opening of the thirtieth annual buying convention of the United National Clothing. The convention is being attended by retail clothing dealers from seven eastern middle western and western states, and has taken the form of a huge display of made up garments.

"The public is not buying, manufacturers and dealers are overstocked," said W. L. Mohr, treasurer and general manager of the association today.

"The price must come down. We have passed the peak in high prices of wearing apparel. Men's clothing will be considerably cheaper from now, the retailer can afford to sell at less for his costs are becoming lower."

"Here are some men's shirts," he said, indicating an exhibition, "which wholesaled at \$15 a dozen a few months ago, now they are offered at \$16.50 a dozen. Here are 2,000 suits offered at \$16.50, suits that ordinarily wholesaled at \$15.50. The age of extravagance has passed, and rather than let the goods rot on the shelves, the manufacturers are getting what they can get out of them."

Nearly 9,000 Bodies Of Americans Have Been Shipped From France

PARIS, November 9.—Nearly nine thousand bodies of American soldiers who died or were killed in France during the war have been shipped to the United States and turned over to their nearest relatives, and 1,800 more are en route to French ports. It is announced by the United States graves registration service. The work of removing the bodies of fallen Americans is expected to be completed by next summer.

Nearly sixty percent of all the bodies of American officers and enlisted men buried in French soil will be returned to the United States, according to recent estimates.

Removal of bodies from occupied areas in Germany and Luxembourg has just been completed and all of them were sent to America. Working forces will begin operations in Belgium next month and from cemeteries in that country, 1,000 bodies will be removed. The work of exhuming bodies in the West, Belgium and St. Nazaire areas has been completed, and now the efforts of the Americans will be concentrated on the war zone. It is probable that the first uniform headstones recently decided upon by the war materials council, will be set in the four permanent cemeteries until next autumn.

Says Attorney General's Action Strongly Close To Compounding A Felony

INDIANAPOLIS, IND., Nov. 9.—Palmer's conduct, Attorney General Palmer's conduct in the government's handling of the case against the trial against the government, is being attacked today by the Indiana Times. The article says that the government is "compounding a felony" by not prosecuting the case against the trial against the government. 650 CASES OF TYPHOID IN OHIO TOWN

ALLIANCE, O., Nov. 9.—A careful survey of the situation made at Salem, last evening, brings the total number of persons stricken with typhoid fever in the village at that place up to 650 well defined cases. Others, to a large number, are ill, suffering from a mild form of the disease.

The number of patients has taxed hospital facilities in Salem to the limit, and today several will be taken to the St. Elizabeth hospital in Youngstown.

It is estimated that within the past 24 hours fifty new cases have developed, despite the fact that the citizens have been warned to boil all drinking water at least forty minutes. Nine deaths have occurred to date, and a score or more are recorded by the attending physicians as being critically ill. Those who are investigating conditions in Salem are inclined to the belief that the scourge is due to sewage leakage into the water system at some obscure point.

Mr. M. McFarland, secretary of the Manufacturers' Association of Salem, has been placed in charge and with a number of assistants, is giving his entire time in trying to cure for those who have been stricken with the scourge. Additional nurses have been called for, the number in attendance being headsquid.

Hotel Owners Will Eat 25 Cent Meal

NEW YORK, November 9.—Hotel proprietors attending the fifth national hotel men's exposition here, will partake of a twenty-five cent meal on Ellis Island this week, on the invitation of Frederick A. Wallis, American commissioner. Skeptical on the part of the hotel men that the island's chef, D. T. MacGowan, could concoct a repast for that sum, and still claim a profit, is said to have prompted the invitation and also the acceptance.

Edward M. Tierney, chairman of the exposition committee, today recommended that hoteliers "eat the price of a 25-cent meal" in order to encourage patriotism and as a part of the general price cutting program.

Blame Third Man For The Shooting

CLEVELAND, O., November 9.—The trial of John W. Kuge, an automobile salesman, opened here today and promised to produce some sensational evidence.

Both Kuge and his counsel declared that evidence will show that Joyce did not fire the shot. Identity of a mysterious "third man" who did the shooting, will be revealed they contend.

Alleged Kidnapper Is Indicted

MORRISTOWN, Pa., Nov. 9.—August Pasquale was indicted by the grand jury today on the charges of kidnapping, burglary and extortion. Pasquale, 34, was indicted on the charges of kidnapping, burglary and extortion. Pasquale was indicted on the charges of kidnapping, burglary and extortion.

Firm Reduces Clothing Price

ROCHESTER, N. Y., Nov. 9.—A reduction of 33 1/3 percent in the wholesale price of clothing is announced by the firm of J. B. & C. of Rochester, N. Y. The reduction is effective from November 1 and applies to suits and overcoats. The reduction which is in addition to the usual cash discount of 7 percent, represents a cut from \$22 the opening of the fall wholesale price, to approximately \$15.

Order Full Strength For 2nd Division

WASHINGTON, D. C., November 9.—Telegraphic orders were sent today to the army recruiting stations to recruit the second division to its full strength immediately. It was explained at the war department that under the provisions of the national defense act one division of the army must be kept at full strength and that the second division had been selected by the general staff as the unit to be maintained at full strength.

The division, which is stationed at Camp Travis, Texas, is six thousand strong of its full strength and the war department said that the recruiting had been going on for some time. Recruits for the second division have been drawn from the states of Texas and Oklahoma, but under the new order they will be taken from any place in the country.

Major General James G. Harbord, who was General Pershing's first chief of staff in France, commands the division.

COLD WAVE WARNING

WASHINGTON, D. C., November 9.—Cold wave warnings for Michigan, Indiana, Kentucky, Tennessee and Western Ohio were issued today by the weather bureau. Much colder weather tomorrow throughout the eastern states, also was forecast. The cold wave is following a disturbance of marked intensity which was central this morning over Lake Huron and which was moving eastward rapidly.

Storm warnings are displayed at all points on the Great Lakes.

War To The Finish, Says Johnson

KANSAS CITY, MO., November 9.—War to a finish was declared here today by President H. H. Johnson of the American League and his five "loyal" club owners in the fight against the formation of a new twelve club league. President Johnson declared that clubs would be established in Chicago, Boston and New York next season to take the place of the clubs the revolutionary movement to reorganize baseball would affect.

Hold Suspect On Charge Of Killing Missouri Girl

KANSAS CITY, MO., Nov. 9.—Plans to secure the extradition of Dennis Chester, arrested yesterday at Great Falls, Mont., and return him to Kansas City to face a charge of first degree murder for the killing of Miss Florence Barton, Kansas City society girl, who was shot to death on the night of October 2, on a lonely suburban road here, were made by officials today, according to a dispatch from Great Falls. Chester denied the charge.

A warrant charging Chester with the murder was issued by the county prosecutor here late yesterday on receipt of advice that he had been taken in custody at Great Falls.

Miss Barton, the daughter of a wealthy shoe manufacturer, was shot to death when three men in a motor car drew up beside the automobile in which she and her fiancé, Howard Winter, were riding. Winter was wounded in the arm. Barker was believed to have been the motive for the attack.

Winter, according to the police, recognized the photograph of Chester as that of one of the assailants. Winter declared that Chester fired the shots.

Farmers Break Crop Records

WASHINGTON, Nov. 9.—American farmers broke production records of five crops this year. Preliminary estimates, announced today by the department of agriculture show the corn, tobacco, rice, sweet potatoes and pear crop surpassed in size those of many previous years in the country's history. In addition every large crop of oats, barley, rye, potatoes, apples and hay, were grown.

Refuse To Accept Wage Cut Springfield, Mass.

SPRINGFIELD, MASS., November 9.—The plant of the Hedges, Fibre Carpet Company is closed today following the refusal of the 750 employees to accept a cut of 15 percent in wages which the management states is the only way the plant can be kept in operation.

Billy Butt-In THE TIMES' WEATHER MAN

Of course the weather-weather prophets are taking credit for having predicted this cold wave that's supposed to be coming. But the wild goose chase of the weather-forecast is a long one. That's the sign of a cold wave, they say. We shall see. In the meantime there's some more weather news:

SHRIMP: Clearly tonight, probably tomorrow to have some little fish, much colder. Cold wave in west part.

KENTUCKY: Fair and much colder, tonight and Wednesday with a cold wave.

The extremes in local temperature today were: High, 61; low, 26.

To Direct Sale Of 30,000,000 Christmas Seals

COLUMBUS, O., Nov. 9.—Indications that the business men are becoming interested in the tremendous business of preventing disease, and are taking an active part in the fight against tuberculosis, are shown in an announcement today by the Ohio Public Health Association of the personnel of the Ohio Christmas Seal Committee.

It was announced that Warren A. Myers, Springfield manufacturer, had accepted the active chairmanship of the committee and had enlisted as district chairmen the following—all of whom are connected with large manufacturing enterprises in the state: S. O. Richardson, Jr., Toledo; A. L. Garford, Elkhart; H. H. Thacker, Canton;

George E. Bayly, Lima; J. Walter Jeffrey, Columbus; Perry C. Mark, Zanesville; Gordon Rouscher, Hamilton; Richard Enderlin, Chillicothe.

These men will direct the sale of thirty million Christmas seals and health bonds in Ohio in a campaign which opens December 1st. This is the annual sale which enables state and local voluntary health organizations to carry on the educational campaign against tuberculosis; to finance public health nursing and do other practical health work in communities where public funds are inadequate.

"We were able to interest business men in the campaign this year because the fight on preventable diseases in Ohio, which is financed through the sale of these Christmas seals, is getting results," said Secretary H. J. Rountz. "Business men are coming to realize that preservation of community health is a matter of first importance. The work of fighting disease no longer is left solely to the social workers who inaugurated the great campaigns and demonstrated the value of organized preventive methods."

Tuberculosis, a preventable disease, killed more than 12,000 Ohioans last year. That number, however, was the lowest in many years, and the declining tuberculosis death rate in Ohio is indicative of the effectiveness of these Christmas seal campaigns.

"We have 53,611 active cases in the state at the present time and there are approximately 13,500 children exposed to this disease in families where tuberculosis exists," Mr. Rountz continued. "The Christmas seals will furnish the funds to protect these children and the public generally."

Stephenson Won By 476

The many local friends of Judge Will H. Stephenson, of West Union, were highly elated over the news of his splendid victory at the polls last Tuesday, when he was re-elected for a second term as judge of the common and probate courts of Adams county.

Judge Stephenson was the only Democrat in Adams county to pull through the Republican landslide which sent all of his colleagues on the county ticket down to defeat by big majorities. His success over his worthy opponent, Attorney C. L. Roelink, is regarded as a personal triumph for the popular jurist and a hearty endorsement of his administration of the past six years.

Judge Stephenson's official majority was 476.

This is the ONE Reason Why You Should
See and Hear the Pathe Phonograph NOW

WE LAY this proposition down as the naked truth, that sooner or later every cultured and well-conditioned home will own a phonograph. The question is— which one?

The purpose of this demonstration sale is to prove that the jeweled Pathe is the one to own.

The Pathe phonograph is superior, because it differs from other talking machines.

It has invaluable features which other phonographs do not possess.

With the Pathe phonograph, you do not have to worry with needles. Needles scratch and wear out your records, to say nothing of the inconvenience in having to change them every time you change a record.

The Pathe plays with a Sapphire Ball. This Sapphire Ball is round and smooth, is ground under a microscope to exactly fit the grooves in the records and is indestructible.

You can play a thousand records with a single Sapphire Ball, without injury to the records or to the Sapphire Ball itself.

And the tone! You have never heard such marvelous, lifelike tone reproduction in a phonograph, unless you have listened to the genuine Pathe.

Yet the *Pathe* Costs no more than the ordinary Phonograph

And it is to more thoroughly demonstrate this fact, this marked superiority, that this sale is being held; that 100 genuine Pathe phonographs (Model 10), with their complement of \$25 worth of FREE Pathe records, have been allotted to us for this purpose in Portsmouth and that this same identical sale has been planned for a nation-wide demonstration which will embrace approximately 100 of the principal cities of the United States.

IS 76, BUT SHE SAYS VOLA-TONIC IMPROVED HER HEALTH GREATLY

This Woman Tells How the New Medicine Brought Back Her Strength and Recommends It.

"I am 76 years old but even at my age, Volatonic has improved my health a great deal and I want to recommend this medicine," said Mrs. Susan M. Hanks, 2012 Winston avenue, Toledo, Ky.

"Before I took Volatonic I was in such a weakened condition that I couldn't even sweep a room without sitting down and resting five or six times. Frequently I could hardly get around the house at all without catching hold of the furniture to steady myself.

"I couldn't sleep at night and often had what I called night sweats when the perspiration would stand out on me. I didn't have any appetite, either, and couldn't eat right and just kept losing strength.

"I just thought that at my age I never would find anything that would help me but one day I was in a drug store and saw a bottle of Volatonic on the counter. I had been reading about Volatonic and when I saw that bottle there it just came to me that this

might be the medicine I needed and I bought a bottle and started taking it.

"I'll have to say frankly that I didn't notice much result from taking that first bottle but I didn't give up—I kept on taking Volatonic—and it wasn't long after that until I could see that I was improving rapidly.

"I'm greatly improved now. I'm so much stronger that I can do my sweeping without having to rest a single time. I sleep soundly every night and have got back my appetite and am eating real meals again.

"Yes, Volatonic has done a lot for me. My family says I should boost it all I can and I want to recommend it. Don't let nagging ailments sap your vigor and vim. Start taking Volatonic TODAY and get back strength and health as thousands of others have done.

VOLA-TONIC, "Builder Of Strength," is sold in Portsmouth by Fisher & Strick.

NOTE: All Volatonic testimonials are absolutely the whole truth. The original signed testimonials are on file at the office of the Volatonic Co., Cincinnati, O., and are open for inspection of the public at any time. Adv.

Crabbe Bill Carries By 275,000 Majority

According to word received from Columbus Monday afternoon by the Toledo County Dry Federation the Crabbe Bill carried in Ohio last Tuesday by the overwhelming majority of 275,000 with Meigs and Hamilton counties to be heard from officially.

Franklin county gave the largest majority, 18,000. Out of a total vote of a little over 2,000 in Adams county a majority of 1,100 was returned in favor of the Crabbe Bill. Every county except two or three gave a dry majority.

EAGLES PLAN FOR BIG TIME

An effort is being made to get a will held by several annual flag day exercises to celebrate Armistice Day. A splendid program has been arranged with music by Miss Beatty, Stagner and Dr. Joseph Gull. There will be speaking by Attorney T. C. Beatty and L. C. Pool. The program will be followed by a lunch and dance. The committee in charge includes W. J. Wiley, James Goss, Frank Brownell, Miss Brewster, Max Tucker, John Drenth, Don Sprague, Stephen Cohen, Frank S. Kane, Fred Hill, Oscar Frank, O. W. Clemens, Fred Haselmann, William Starnes, Frank Frazier, C. C. Schaeffer, J. E. Stamm, Otto Leach, Otto Leach and Otto Leach.

Baby Blinded from Eczema
"The child's head and face were almost a solid mass of the eruption. The eyes were closed and the child was unable to see. The mother was in a state of despair. I was called in and after a short examination I found the child had Eczema. I prescribed a course of treatment and the child was cured. The mother was very grateful and the child is now able to see and play like other children of its age."

GRAYSON REPUBLICAN S CELEBRATE VICTORY

Pierre Rose, well known local young man elected Grayson, Ky., Saturday and Sunday, arriving there Saturday in time to witness the celebration held in honor of the election of Senator Harding.

According to Mr. Rose, almost the entire populace paraded the streets while awaiting the arrival of the Ashland band. The band carried a large cross to which was nailed a dead rooster. Everything from an air gun up was fired along the line of march.

Mr. Rose is a Democrat, but admits that the winning Republicans had some parade.

assures you that there is no substitute for Scott's Emulsion.
An old saying, but none the less true: A bottle of Scott's Emulsion taken in time, helps keep the doctor away.

SCOTT'S EMULSION
CHILDHOOD. Nov. 9-A physician in charge of St. Joseph's hospital at St. Joseph, Mo., says (filed of Father Heintz) that a child who was in an advanced stage of tuberculosis failed to respond to treatment at the hospital for about ten days. For several years he has been able with a combination of all medicines which seemingly failed to find to treatment.

ST. LOUIS, Mo., Nov. 9.—Sixty-one hundred quarts and several barrels of whiskey were confiscated from a freight car here today. The car was consigned as furniture.

You are not Sick,--- Now

And probably you have seldom stopped to think what sickness costs Portsmouth.

When the breadwinner is ill, wages cease, productive labor is lost to the community and an entire family suffers.

Sickness is one of the chief causes of dependency among many families who through no fault of their own come to the place where they are unable to provide for themselves.

This year, the spirit of "human helpfulness" in Portsmouth has provided nursing service for 428 patients.

Three hundred children received medical attention because you helped make this service possible. In doing this work five thousand visits were made by the nurses of The Bureau of Community Service "Not a charity, but a friendly, practical Community Service."

Gasoline "Boiling Points" —and the Spark Plug

THE gasoline with a complete chain of boiling points vaporizes readily, ignites quickly and burns up completely. Red Crown Gasoline has this complete chain.

With Red Crown in the tank, your spark plugs do not foul quickly. There is little misfiring. You don't have to clean spark plugs so frequently. Red Crown Gasoline is a straight-distilled engine fuel that's packed to the last drop with dependable power. It gives more miles to the gallon, with less expense per mile.

Archer Spent \$843.81 In Campaign

COLUMBUS, O., Nov. 9.—R. W. Archer, Republican, spent \$843.81, in being elected state auditor, his expense account filed with the secretary of state today showed other candidates who sent in statements were B. F. Welch, of Lima, candidate for congress, \$620.64, and John Cooper of Youngstown, candidate for congress, \$200.

SHOPMEN LAID OFF

BALTIMORE, Md., Nov. 9.—Some ninety men are to be laid off at the Mr. Chalmers shops of the Baltimore & Ohio Railroad by November 10th. It was decided today. Nearly one hundred and fifty men were discharged a few weeks ago. The layoff, it was said by officials, is due to a natural dullness which may last but a short time. Much of the railroad equipment, which was in bad condition following war time operation has been put back into first class shape and the shops now have to deal only with routine repairs.

Allege Negroes Not Allowed To Cast Ballots

NEW YORK, November 9.—Charging "open and flagrant disenfranchisement of colored voters in a number of states in the presidential election of 1920," directors of the National Association for the Advancement of Colored People, today telegraphed to Representative Isaac H. Miller, chairman of the house committee on the census urging enforcement of the 14th amendment and "consequent reduction of representation in southern states in which colored voters are disenfranchised."

Flour Sells Under \$10

MINNEAPOLIS, November 9.—For the first time in almost four years, flour sold under the \$10 a barrel mark at the mills here today. Quotations on family patents broke 75 to 75 cents today, making today's range of prices \$9.65 to \$10.00 a barrel. Yesterday's sharp decline in wheat was given as the cause.

Orwig Spent \$776.19 In Campaign

COLUMBUS, O., Nov. 9.—Charles R. Orwig, of Mansfield, defeated James C. Orwig, of Mansfield, for state treasurer at last Tuesday's election, spent \$776.19 in his campaign, according to his expense account filed today with the secretary of state. Orwig, 42, was a Republican, defeated James C. Orwig, 39, a Democrat, for treasurer, 1916, and spent \$500.

Ice Blasted and Mined.
Colder ice from the Alps is being used to experiment in Lyons, France, and several other cities in Europe. This ice is blasted and mined in the same manner as stone is quarried and is produced to order for the purpose of its hardness and lasting qualities.

Money can't buy a greater luxury or surer way to beauty

The easy way to beauty in a simple cake of soap

HOW do you keep your face clean? Do you give it a hasty daily washing with any old soap? Or do you perhaps depend on cold cream to remove dirt and dust?

Either method is dangerous and invites bad results.

Careless washing makes the skin rough and coarse. Yet complexions get soft and bubbly without the tonic of water.

The secret is—make washing your face a real beauty treatment. How—by using Palmolive Soap, the beautifying cleanser.

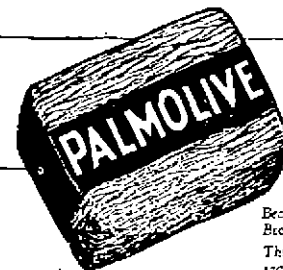

The Palmolive lather is so mild that it

cleanses without irritation, no matter how sensitive is your skin.

Profuse and creamy, it penetrates every tiny pore, removing the dirt, dust and oil secretions, which, when neglected, clog and irritate. Apply Palmolive Cold Cream and apply it liberally. If your skin is dry, use it both before and after washing.

Palmolive is the scientific modern combination of the Palm and Olive oils Cleopatra used. It is the favorite facial soap of millions who have learned that while you pay more you can't buy better.

THE PALMOLIVE COMPANY, MILWAUKEE, U. S. A.

PALMOLIVE

Why doesn't it cost more?

Because the Palmolive factories work day and night to supply the demand. Because the rare Palmolive ingredients are bought in enormous quantities. Thus the price of Palmolive is kept moderate—no more than for ordinary soap. It can be enjoyed by every woman and procured everywhere.

U. S. Cruiser Is Aground

WASHINGTON, D. C., Nov. 9.—The cruiser Cleveland attached to the newly organized squadron on duty in Latin American waters, is aground in the harbor of Cartagena, Colombia. The navy department was advised today.

The message said the ship was undamaged, but that attempts to haul her off the bar had been unsuccessful and that part of the equipment was being removed in order to lighten her. Meanwhile the commandant of the Mare Island (San Francisco) navy yard has been asked to send men to the scene.

Youthful Hunters, In Camouflaged Crafts, Brought Down Many Wild Geese Near Wheelersburg Yesterday

Leave it to the youthful hunter to bring home the game.
Monday afternoon several hun-

dred wild geese nestled on the bosom of the placid Ohio in vicinity of Wheelersburg. Strutting a

shift boys of that neighborhood camouflaged it with fender secured from a nearby corn field. They secreted themselves in the bottom of the boat and when it drifted among the geese, they pulled their guns, quickly emerged from their hiding place and opened both barrels at said geese. One boy is said to have killed eight after being on the river only 30 minutes.

Liquor Licenses On Begging
NEW YORK, November 9.—Only three hundred of the 2,701 physicians holding licenses to prescribe whiskey, have applied for renewal of their permits, although two months have elapsed since this privilege was granted.

Dr. Charles R. O'Connor, federal director of prohibition for New York, announced today. Physicians are making other medicine more effective and satisfactory than liquor, he said.

BRINGING UP FATHER

Copyright 1910 International News Service

BY GEORGE McMANUS

Girl Swallows Poison To Avoid Punishment

In order to work on her father's sympathy and in this way avoid a threatened punishment for a childish offense committed earlier in the day, Gerald Morgan, nine year old daughter of Mr. and Mrs. George E. Morgan

of 1061 Rhodes avenue, New Boston, took about a spoonful of a mixture made up of half parts of carbolic acid and croton about six o'clock Monday evening.

The child found the bottle of poison in a bookcase where it had been left by a domestic who brought the mixture sometime ago for treatment.

In the afternoon Mr. Morgan had taken the girl to work for misbehavior and he had threatened to punish her later in the day. In order to avoid the punishment the child got hold of the bottle and swallowed about a spoonful. She started screaming when the acid burned her mouth and throat and her parents rushed to her side. She was unable to tell what had happened and the parents took her at once to the office of Dr. W. G. Cheney, where the Fisher solution was administered and a stomach pump was used, the poison being removed before it could do much harm.

The child's mouth and tongue were severely burned by the acid.

Late last night the child was much better and was sorry she had attempted to avoid punishment in the manner in which she did for she probably suffered more through her act of drinking the poison solution than if she had submitted to the punishment that was to be administered by her father.

GEESER SERENADE CITY; WINTER COMING

Winter is on the way.

It is right around the corner if you would believe the goosebump weather prophet. Why? Because a flock of wild geese passed over the city last night the prediction was freely made that winter would arrive hurriedly and without any trills. The quacking geese were heard by hundreds of people as they circled over the city for an hour before

heading for the balmy South.

FATHER MCGUIRK GIVEN \$500 ON ANNIVERSARY OF ENTERING PRIESTHOOD

Rev. Father McGuirk, who is receiving treatment in St. Carmel Hospital, Columbus, was given a pleasant surprise Monday when a committee composed of Dan Collins, Dan Flanagan and Thomas Kreeb, of this city called on him and presented him with a check for \$500 given by members of his congregation.

Forty one years ago yesterday Father McGuirk was admitted to the priesthood and celebrated his first mass. The handsome gift was given in recognition of his faithful service as pastor of the Holy Redeemer church.

Father McGuirk is improving slowly and probably will be able to come home in two or three weeks. He is on a diet and will remain on it possibly ten days longer.

MISS DOLLY WISE

She is here to answer any and all questions concerning love, matrimony, marriage, love, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—As this is the first time I have come to you I hope you will answer my question. I am a girl thirteen years old and in the eighth grade at school. Do you think I am doing very good in school? Please answer this question. Can you tell me where the different races came from? I mean from where did they originate, also where did the Indians of America originate? It seems to me that if we all came from Adam and Eve why are there the different races of people? Please answer these questions for me. I read in the paper that a boy in college claims to have discovered a fourth dimension. Is it true, or can there be such a thing? I have a girl friend who will soon be 15 years old. She goes with the boys, I don't mean she keeps steady company with them, but she comes home from parties and church with them. Do you think she is too young to be with them?

A GIRL

To get at the origin of the different races we will have to go back to the time of Noe. He had three sons—Sem,

Ham and Japhet. The posterity of Sem was spread over the greater part of Asia. From him are descended the Israelites, the chosen people of God. The descendants of Cham went to Africa, while the children of Japhet passed over to Europe. No definite solution has been found in regard to the origin of the American Indian. The Indian bears a striking resemblance of the Mongolian, and it is supposed that his ancestors originally came from Asia to North America. The Fourth Dimension is a term used in Geometry. Your friend is not too young to walk home with neighbors boys if her mother doesn't object.

Dear Dolly—I have been married quite a while and never have met any of my husband's people. They didn't want him to marry so they haven't any use for me. I think all and all of my husband, he has always been good to me, but at the same time when they ask him to come and see them, they have dinner, you know it is bound to hurt a little. Would you just let it go and never let any attention to it and never let me? My people all treat him just as they treat me. If they didn't I'm sure I wouldn't go where he wasn't welcome.

DELPHIA

This people may think they are doing something "smart" by slighting you, but I think they are just showing how "small" they are. If I were your husband I wouldn't go where my wife wasn't welcome. Of course if he wants to go, I believe it would be best not to say anything about it. Maybe when they see you don't care, they will change their attitude toward you.

Dear Miss Wise—This is my third time coming to you and you have always helped me and I hope you will help me this time. Dolly, I have looked at the hair and it is so fine it always blows when I am out. My hair is thick but fine as silk. I use Danteline on my hair but it doesn't seem to do any good. Now I will appreciate it very much if you will give me a good remedy to make my hair coarse. Also Dolly, does cutting hair harm the hair any? My hair is very long but I want it to be curly so tell me how to curl it without harming my hair.

Your Manners

IT IS CORRECT
To end an undesirable acquaintance, ship by unceremoniously averting the eyes when meeting.
For a lady who has been assisted by a strange gentleman to ask his name when thanking him.
For a male relative of a lady who has been given assistance by a strange gentleman to call and thank him.
Merely to say, "I beg your pardon," when accidentally brushing up against a person.
For a gentleman to pick up for a lady—when a strange one—an article she may have dropped.
IT IS NOT CORRECT
For anyone to force their way ahead of others who are waiting in line at a ticket office, or elsewhere.
For a gentleman to proceed aboard a street car the lady he is escorting.
For a gentleman who chances to be boarding a street car at the same time as a woman friend, to pay her fare.
For a gentleman to retain his seat in a street car while a lady stands.
For a gentleman to drink first at a public drinking fountain when ladies are waiting.

LONELY MAN.

It takes time to adjust oneself to a change like yours. Time will work out your problem and show you a way. It is too soon for you to think of marrying again, and it would be unwise for you to hasten such a step. Simply be patient and trust that when the right time comes you and your family will be reunited. Perhaps you can meet another woman you can love who will be a good mother to your children, but unless you choose wisely trouble will result. If you marry a woman for a housekeeper, she will not be good to your children. Then, too, if you marry a very young girl, she will not have the patience to care for your children. It takes an extraordinary woman to be a good stepmother. If you marry again choose a woman with an understanding heart who loves children, and would be kind to them.

Dear Miss Wise—Could you tell me where I could send opposition bills to have them prepared to make free of? Also is John D. Rockefeller dead?

A HUNTER.

You could "cure" the ladies yourself or have a taxidermist do it for you. There is one on Seloto Trail, John D. Rockefeller is not dead. Didn't you see his picture on the front page of last night's Times?

Mrs. John Hurl, 1219 Seventeenth street, will entertain the Research Club this evening.

A masque and dance were given by the Knights and Ladies of Security Monday night in their hall in the Hotel Savings building. The regular business session was discontinued and the meeting was turned over to the social committee, consisting of George Swick, Elmer Peach, E. W. Chickel and M. Thatcher. Over sixty couples were in attendance enjoying a merry evening. Prizes were given to Miss Pearl White and Messrs. John Goodman and Frank Patton for the most attractive costumes. Refreshments were served at the close of the evening.

Mr. and Mrs. Frank Allen of Columbus are spending a few days with Portsmouth relatives and friends.

Mrs. J. S. Hardin of Gallia avenue was hostess of one of the most enjoyable meetings of the Joseph Spencer Chapter, D. A. B., on Monday afternoon, when fifteen members passed the time pleasantly over needlework and making plans for the winter's activities. The afternoon was brought to a close with a light luncheon served by the hostess.

Tickets are being rapidly sold for the turkey dinner to be served Thursday evening by the ladies of M. S. S. church in the Parish House on Fourth street.

Mrs. W. H. Wrenn, of Grace street is quite ill.

Prayer services will be held by the members of the M. E. church this evening at the home of Mr. and Mrs. A. T. Condit, instead of Thursday as was formerly announced.

BILLY WHISKER

By FRANCES TREGO MONTGOMERY

The old love of excitement, adventure and mischief burned in Billy's heart once more as it had not done for a long, long time. He forgot his rage at old Blue Nose Mandrill who was now dashing around the ring in a new harness-wagon (fashion on the beautiful white Arabian sword which had been described by his regular rider on the first appearance of Billy Whisker and his troupe, for he had cruelly by the old snappers had pulled his

leapt and threatened to make him as that as a panicle by yanking his through the close set bars of his cage. He thought only of the fact that by strange chance he was the "winner" of the prize money which the old snappers were taking a great addition to their store.

"Whatever may come of it," Billy, talking to himself, of course, "now is my chance and I'll prove it. These monkeys know what they are doing and if they want me to be their leader, I will. It won't do to be easy with them. They have undertaken to amuse this great audience who seems pleased with their efforts and it's my part to keep them at it and to the work. No shirking now."

The Ladies Aid Society will meet Thursday at the home of Mrs. Martin for an all day session. Lunch will be served by the hostess.

There will be baptism in the Ohio river at the foot of Jackson street, Sunday afternoon at 2:30.

The church is undergoing repairs, the appearance being greatly improved. Cement walks are being laid. A new interest is being taken in the work.

To Address Bible Class

Rev. Robert Albough, pastor of the Emmanuel Baptist church, New Boston will address the Adult Bible class of the Calvary Baptist church, this evening at the church.

Women of Middle Age

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change in her life without experiencing a train of very annoying and sometimes painful symptoms. These dreadful hot flashes, smothering spells, fainting spells, nervous troubles and irregularities are symptoms that should have prompt attention. These two letters prove what a successful remedy Lydia E. Pinkham's Vegetable Compound is for women at this time of life.

These Two Women Helped During Change of Life.

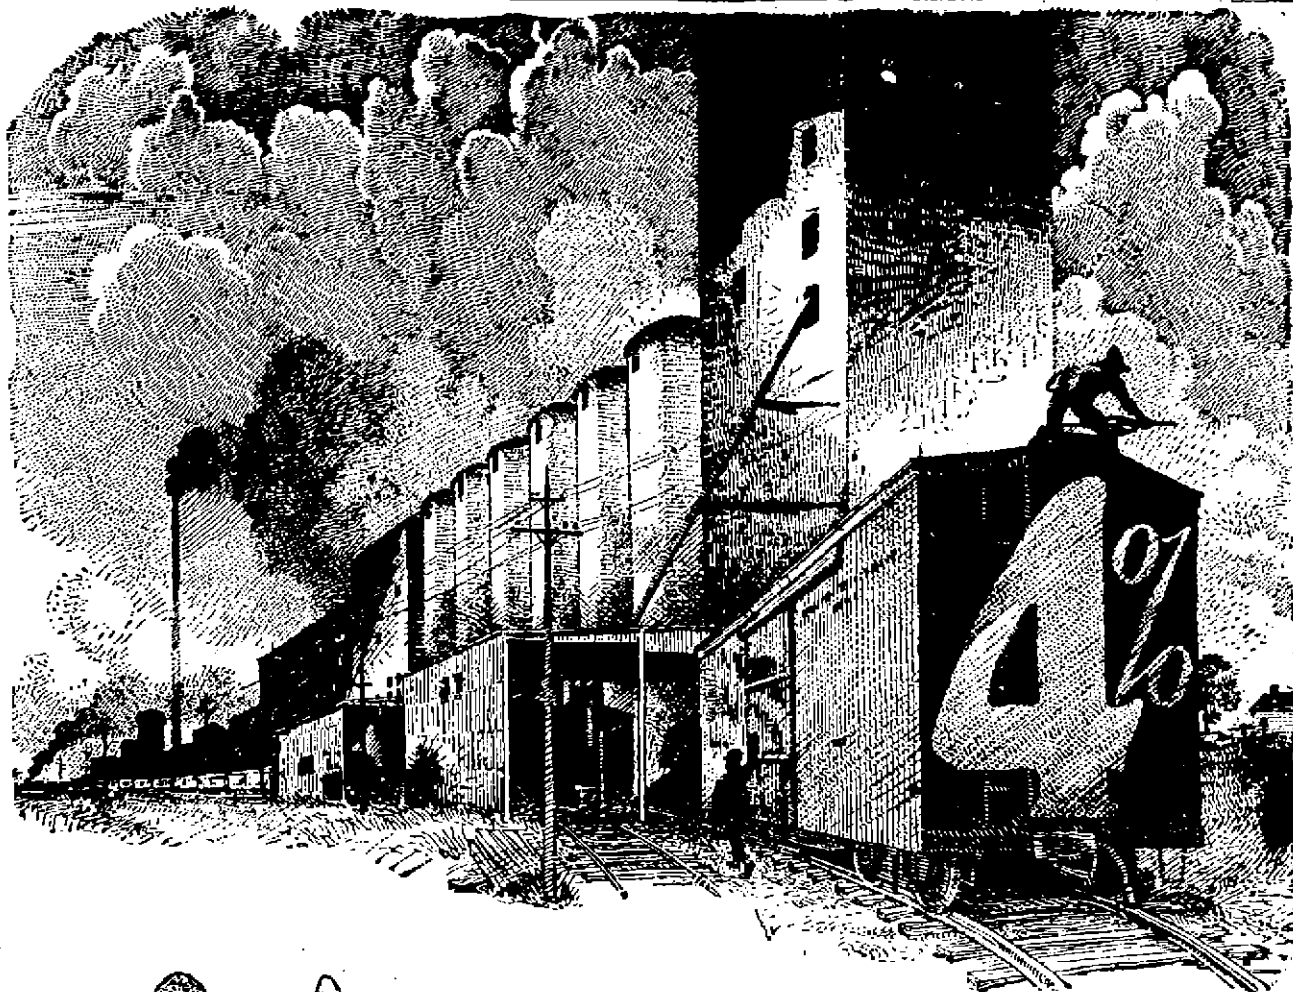

Taunton, Mass.—"I could not eat or sleep for six months, had fainting spells and could not walk without help for three months, caused by female trouble. My cousin, who was a doctor, told me to take Lydia E. Pinkham's Vegetable Compound, and it helped me greatly. Then during the Change of Life I used the same remedy. I am seventy years old now and am able to do my own housework and walk one mile to church every Sunday morning and evening. I am recommending the Vegetable Compound to my friends having the same troubles as I had. Your remedy is the best on earth. I cannot find words to express my gratitude for it."—Mrs. SUSAN C. STABLES, 197 E. School St., Taunton, Mass.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic trouble and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered so much terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DASH, 743 N. 25th St., Philadelphia, Pa.

Only 4% of the Hard Wheat Crop Was Good Enough for Enterprise

THIS year's hard winter wheat crop was a ninety-six per cent failure as far as quality was concerned. Only four per cent of it had strength enough to make it fit for Valier's Enterprise Flour.

There was lots of wheat in the fields, but most of it grew too fast. It filled out with starch and water before solid, strength-giving gluten could form.

Four per cent of the crop developed more slowly. Grown on the few scattered spots where the soil was drier, it matured into thinner, harder wheat, strong and full of gluten.

Enterprise Flour must be milled from such grain to produce the fine results you expect of it. So we got that kind of grain even tho every bushel, because of its scarcity, commanded the highest premium we ever paid. At least you, who use Enterprise Flour, can count on the continued high quality of your baking.

As you'd expect, Enterprise costs more than ordinary flour. It's worth more, for it produces better baking. It eliminates needless, costly failures, and a sack goes much further. The economy and wisdom of paying for quality in flour will be more apparent this year than it ever has been before.

96% of the crop. Full of starch and short on gluten. Makes ordinary flour.

4% of the crop. Strong in gluten. Makes the finest flour.

Valier's Enterprise Flour

Bake at home—you'll get better things for half the price.

HOUSE FALLS ON TWO MEN; ONE MAY DIE

BRANTON, Nov. 9.—Edward Harmon, 28, was perhaps fatally injured and Edward Elkins, 18, painfully injured in an unusual accident at 1000 E. Main street, Monday afternoon. Harmon was taken to the Marting Hospital after first aid treatment by Dr. Campbell of Oak Grove and was reported last night in a very critical condition, but Elkins was able to go home. Both live in the neighborhood of where the accident occurred.

The two men and Harmon's father were engaged in raising Elkins' house and had the structure raised several feet with jacks. Edward Harmon and Elkins were under it when the jacks slipped and the house toppled over. Harmon was caught beneath one of the beams, and his breast was terribly crushed, a number of ribs being broken. Elkins was caught in a crouching position and was nearly held by the weight of the house by the fact that his head was caught under a beam.

Deputy Sheriff Charles Hunt and Harold Brummer happened by in a few minutes after the accident occurred and found Harmon screaming and in a state of panic with the two men pinned under the weight of the house. These two men and others all came out with the jacks and raised the house sufficiently to release Harmon, but to extricate Elkins it was found necessary to saw out a section of the floor of the house.

Official Vote

The official vote in Adams county on Election Day shows that Harlan's plurality was 114. The total vote was 1,217.

JEFFERSON IS GUILTY

"Guilty" was the verdict returned in the case of Willie Jefferson, aged 25, who was brought before Judge Thomas and a jury in Common Pleas court Monday on a charge of larceny in connection with the theft of a diamond ring valued at \$120 from the Carr jewelry store, early last July. Thomas Haley was foreman of the jury which deliberated on the case more than an hour before reporting with their verdict at 1:30 yesterday afternoon.

The state did not contend that Jefferson stole the ring but claimed that he was a conspirator with Harry Hunter, negro, who admitted the theft, and who was returned here from the Mansfield Reformatory, where he was sentenced for the offense, to testify against the accused.

The accused was defended by Attorney Philip Arr, who on behalf of his client exercised to the verdict and gave notice of a motion for a new trial.

Where is It?

"Isn't it strange how quickly these war maps get out of date?" "Really, Mrs. Brunk, I had not thought about it, do they?" "Yes, indeed, I bought a new one only last week, and today I looked for an hour for Armageddon, but I couldn't find it anywhere," Christianity said.

Tooth Bottles

A new invention is a miniature hot-water bottle for toothache. It holds only half an ounce, and is just big enough to be comfortably retained between the cheek and a painful tooth. All toothaches are not curable by application of heat, but in many instances this method is successful.

One Arrest Last Night

Jack Hunt, aged 21, shoemaker, was the man given by the side of a fence caught by the police over Monday night. He indulged in too much "mountain dew" and then fell by the wayside on Sixth street where he was found by Capt. Stutzman and Officer Humblough, who towed him to the city jail.

To Take Up Wrestling

THEODORE BURTON MAY BE SPEAKER OF NEW CONGRESS

Congressman-elect Theo. Burton. Theodore Burton, former U. S. senator and now congressman-elect from the twenty-second district in Ohio, may be chosen speaker, say political leaders. Burton's knowledge of national affairs due to his experience in the senate makes him the logical man, they said.

Will Stop That Cough

'At Last! I Found Health'

"One bottle of Herb Sap—mind you, only one bottle—brought back my health like magic," says H. H. Powers, 493 S. 3rd street, Louisville, Ky., prominent Odd Fellow and member of Painters' Local No. 118. "and I had previously tried every well-known advertised medicine I could possibly obtain, deriving no benefit, not even the slightest. I'm an inside decorator by trade, and the fumes from turpentine had my stomach in a terrible shape. I couldn't enjoy my meals and I fell off in weight. Then came Herb Sap, which put me right back in excellent health. On account of incessant backache and deranged kidneys, I also took Jay's Kidney Pills with the Herb Sap treatment. I now have more ambition than ever, and never seem to feel tired."

Herb Sap and Jay's Kidney Pills, too, if you need them, are now obtainable here at Fisher & Streich's Pharmacy and nearly every other reliable druggist in this vicinity.

ALL EYE STRAIN SHOULD GET ATTENTION.

There is no such thing as eye strain that is slight enough to be neglected. Any error of refraction that is important enough to produce eye strain is important enough to demand correction. And here is another point—nothing is gained by putting it off from time to time. In cases of eye strain DO IT NOW should be the practice. We correct all degrees of eye strain with glasses.

COURT HOUSE

Suit Echo of Wall Collapse

The case of John G. Underwood, former manager of the Woolworth store, against Oscar Boyer and Thilo Boyer, 1015 Third street, was heard by Judge Thomas and a jury in Common Pleas court Tuesday.

The plaintiff sued on a claim of \$210.50 as damages to his personal property, including a typewriter and books, which he claimed were destroyed on July 20, 1919, when the north wall of the Woolworth building collapsed as the result of an excavation made by the defendants on the adjoining lot.

The defendants admitted liability, but questioned the amount, which was the only issue submitted to the jury for determination.

Attorney R. F. Klumbe for plaintiff and Attorney George W. Sheppard for defendants.

Still In Hospital

Mrs. E. P. Jackson, who was injured in an automobile accident, which occurred near Columbus is still in the Good Samaritan Hospital in Columbus and may be compelled to remain there several days. Her husband, Dr. E. C. Jackson is with her.

Will Close Station

The local marine recruiting station in the postoffice will be closed Wednesday and Sergeant Newcomb Smith, who has been in charge, will go to Columbus for further orders. Not a recruit has been accepted for service at this station for months.

Touring Car Turns Over

A Ford touring car left the pike east of Wheelersburg, just this side of the Powellville road, late Monday night, the machine going about fifty feet into the field and turning over. Several motorists were stopped and they assisted in getting the machine back on its wheels. The "wreck car" from the Stillman garage, Wheelersburg, pulled the car to the garage about two o'clock Tuesday morning and after minor repairs it was returned to its owner. No one was injured.

Leaves Hospital

Sergeant Orlis Hall, formerly in charge of the local marine recruiting station and now employed at the Whiteaker-Glassier Company, as an electrician, has been discharged from Good Samaritan Hospital after an operation for appendicitis.

WITH THE SICK

Cho Cho In Country

The pupils of the Otway and Hudson districts had the honor of being the last in the county to hear Cho Cho the Red Cross clown, and to see him perform. He was at Otway at 10:30 this morning and at Hudson at 1:30 this afternoon. The clown leaves tonight for Dover, Pa. for a three days tour, followed by a week at Wilkes-Barre, Pa.

The Red Cross wishes to thank all who had any part in the entertainment of the clown during his stay here and who helped to make it a success.

BIRTHS

"THEY SATISFY?"

WHAT is it you've always wanted a cigarette to do? You know the answer. Chesterfields do it—they not only please your taste, they satisfy! It's all in the blend—a secret blend of fine Turkish and Domestic tobaccos. It puts Chesterfields where none can touch them for quality and value.

NEW YORK, Nov. 9.—Determination to take Babe Ruth, home run king, into the new baseball league formed yesterday in Chicago, regardless of claims made by leaders of the "local six" that he belongs to the American league under former coach Hank Greenberg, was expressed today by Vice President Houston of the Yankees.

"They won't get anything like as close to Ruth as the crown prince goes to Paris," he said.

Will Meet French Champs

Johnny Coulon, the diminutive Chi-
cagon, who held the bantam weight
championship for years, will engage in
two contests in France next month.

CHICAGO, Nov. 26.—The fall series between the pennant-winning clubs of the American Association and International Leagues probably will become an annual fixture.

President Hickey of the American Association is highly in favor of the plan, which also has been endorsed by David L. Fair, president of the Inter-

President Polk will submit the plan to the club owners of his league for adoption." President Hickey said it felt positive that the series will be made a permanent fixture. The event will be called the "Junior World's Series."

The 1920 series between St. Paul and Baltimore, won by the latter club and a financial success.

CHILICOTHE, Nov. 9.—The American Legion is to have club rooms. Through the kind interest of Alvin P. Nigpen, Ross county post No. 62, of the legion will find itself completed within the next few weeks in the southwest corner of the third floor of the Nigpen Building, in rooms formerly used by the Modern Woodmen of America and later by the Orlis. This offer is being made gratis to the legion and covers a period of one year's rent free.

IRONTON, O., November 9.—The Tanks won an easy victory Sunday over the New Boston Tigers at Beechwood Park, piling up a score of 77 to 0. The New Boston boys O. "Dutch" Mohr started the Ironton runaway by making a goal on a fumbled ball on the kickoff and from that time on goals were made at will by the husky Ironton players. A great number of fans witnessed the game and all are confident that the Tanks are a very capable bunch and can make a real showing against any football organization in the country.

DAYTON, O., Nov. 9.—The state bowling tournament will be held here beginning January 28. All entries must be in by January 19. According to officials of the association, the tournament will be the largest yet to be staged by the state association.

Karl Zoellner has returned from Columbus, where he saw the Ohio State-Michigan game. He says that despite the fact that State won, there was very little to choose between the teams. Michigan averaged 4.7 yards per down and State 4 and 2-10. Mr. Zoellner says Steketee's failure to punt on his own three yard line was an unpardonable error and cost Michigan the game.

Two more deaths, as the result of injuries received in football contests, bring the total number of deaths by football accidents this year to 5. The two died Monday are Edward Bohm, 22, of St. Louis and Stanford Grift, 17, of Omaha, Neb.

COLUMBUS, OHIO, Nov. 6.—Basket ball practice has started at Ohio State University with 30 men trying out, according to Coach Trautman.

Not one man of last year's squad—Greenpoint is reported, but Captain Niles, Hordemans, Noel and Harry Wagoner, Blair and others of the football team will report later.

Seventeen games will be played this year, as compared with 25 last season. Twelve games will be played with Western Conference teams, three with Ohio teams and two with eastern

Arrangements have been made whereby the Junior boys of the Pleasanton (Evangelical) Sunday school will have the use of the Sunday school gym on Monday nights from 6:30 o'clock until 7:30 o'clock. The Junior boys are taught by Arthur Engmann.

PLANS FOR THE MORNING PAPER

PREPARATIONS for the morning newspaper to be issued from the plant of The Times, are going forward as rapidly as circumstances will permit. There is a world of work necessary to getting a new enterprise started, especially if it is desired to go ahead like clock work right from the start, and that is the aim of the company that will publish the morning paper.

It has been decided to call the new paper The Morning Sun. The Sunday Times will be transferred to The Sun, and will be known as the Sunday Sun and Times. The editorial policy of the Sunday edition, however, will be that of The Morning Sun.

Mr. Herbert K. Harnaby, who is at present one of the editors of the Pittsburgh Press, one of the great metropolitan newspapers of the country, has accepted the position of editor-in-chief of the new newspaper. Mr. Harnaby has had experience in both small city and large city work. He was for six years editor and manager of a daily paper at Sharon, Pa., and later was editor at Scranton, Pa. of one of the papers there. He has been in Portsmouth for an inspection of The Times plant and general conditions under which the new paper is to be issued, and then decided to accept the offer made him to be the directing head of the enterprise. He will be in full control of the editorial policies of the paper, announcement of which will be made by him, when he arrives in Portsmouth the latter part of the month, and organizes his staff.

Additional announcement as to circulation plans will be made in advertisements soon to appear. The new edition will be sold separately or in combination with The Times.

Application has been made for the Associated Press morning franchise, and a full leased wire telegraphic service will be carried, giving as complete a wire service as any paper in the land. There will also be a fine assortment of special service from correspondents. Altogether it is the aim of the promoters of The Morning Sun to make it a complete and satisfactory newspaper.

HARRY M. DAUGHERTY

AFTER all, now that the election is past and gone, and congratulations are being extended to the victors, there is one man we feel more like sending greetings and good wishes than any other, and that man is Harry M. Daugherty. Mr. Daugherty has been a pretty consistent partisan Republican. He stood firm in 1912 and refused to budge in the face of certain defeat. He held firm through the years that followed, although pursued by the bitter enmity of those with whom he had differed in factional contests. He was one of the first to champion the cause of Senator Harding for the Republican nomination for president, and he was the one man who never lost faith in the ultimate success of his candidate at the Chicago convention. After the nomination he was one of the closest of the candidate's advisers. Now that Harding has won, Daugherty is entitled to, not only congratulations, but also to rewards of victory. He will be assailed, no doubt, by the men who have opposed him in the past, men who secretly were opposed to Harding for the nomination, but the new president has the reputation of being true and steadfast to his friends, and we do not think he will be found wanting in recognition of the part played by Daugherty in his nomination and subsequent election.

THE BUREAU DRIVE

THE Bureau of Community Service has been doing a highly specialized sort of work in Portsmouth for the past few years, that speaks for itself. Its work has been among those, who otherwise would have been neglected, units of the world who have met with trouble and misfortune. It has also been doing great work among the boys and girls of the community. It has gathered together, under one head, the various charity organizations of the city, and has been enabled to do more good at less cost, by reason of this centralization of effort as well as expense.

Of course there has been disagreement among the people as to the merits of The Bureau. That is to be expected. But when one settles down to calm consideration of the work as a whole, the conclusion will be reached that the results have been beneficial, have worked to the general good of the community.

The Bureau of Community Service is now asking for renewal of pledges and for new pledges to carry on its work. We think those who have subscribed should renew their pledges and hundreds of new names should be added to the subscription list.

MORE CLOTHES NEEDED BY BUREAU

The Bureau of Community Service is facing the prospect of freezing the people of Portsmouth to the winter unless some relief is responded to its call for more clothes received. The Bureau will call any because of the large number of calls placed for any articles. At the present being received from needy persons the demand exceeds supply.

Deadly Dust

By Frederic J. Haskin

WASHINGTON, D. C., Nov. 8.—Dust explosions from a bewildering variety of causes and almost all sorts of dust continue to worry manufacturers and the government. Since the method of collecting dust in factories, supposedly a real safeguard, caused an explosion, chemists in government and private laboratories are hunting more anxiously than ever for solutions to the dust danger.

It has for some years been understood that grain dust suspended in sufficient quantities in the atmosphere might cause an explosion if a match were lighted or a spark of electricity released. Lately, however, dust from sugar, chocolate, rubber, fertilizer, starch, paper, and other materials has proved explosive. A campaign against carelessness in dusty grain elevators and flour mills has cut down the number of accidents there, but at a recent conference on dust explosions it was shown that in the 12 months preceding there had been at least seven explosions in other kinds of factories, in which at least 50 people were killed, and \$7,000,000 worth of property destroyed.

The Bureau of Chemistry in the Department of Agriculture says that it receives many samples of dust from manufacturers who want to know if the particular kind of dust is so dangerous. The prevailing tendency is for the factory owner to think that his plant is immune, but so far tests have shown that every kind of dust submitted, except inert dust—that is, finely ground lime or rock, will explode if sufficiently concentrated and ignited.

The reason for this is simply explained by the Bureau of Chemistry as follows:

Why Dust Explodes

"We might try for some time to burn a block of wood with a lighted match. If we take a knife and chip the block the shavings will ignite more quickly. We might make excelsior and find it would ignite still more rapidly, and then continue by gradual reduction to a degree of fineness until dust is produced, when it is found that the mass will burn rapidly when in suspension and diffused in the air. The rate of burning is so rapid that a violent explosion may result."

"In short, anything that will burn as a solid material will burn when reduced to the form of powder or dust. There is no way entirely to eliminate dust from a product, and scientific tests have shown that a very small amount suspended in the air is sufficient to start an explosion if brought into contact with fire."

The main safeguards so far proposed are to have dust collected by special apparatus, and to keep it from falling up where it can serve as a fire. Special window construction for factories is suggested by one engineer to allow the plant to be regularly flooded with air in order to remove dust and freshen the atmosphere. Workmen and managers are being gradually taught to safeguard their own lives by observing precautions. Once it was a common thing for a workman in a flour mill to carry a lighted match into a bin and dusted flour bin. When an explosion occurred, it was attributed to spontaneous combustion, and not to the fact of flame and dust being brought together. Now, factory workers are learning never to smoke or carry matches about a plant, to keep dust from accumulating on beams, machines, pulleys, and floors, and never to use an open flame in a dusty place.

Even in factories where smoking is absolutely forbidden as a fire prevention measure, an open flame, such as an acetylene torch, is used without thought of danger. How extremely hazardous this is the government explosion experts have difficulty in proving to workers. But the soundness of their arguments and warnings was

plainly demonstrated last fall when an explosion occurred in a mill due to dust being ignited by the intense heat from an acetylene torch.

Electric Bulbs a Cause

So slight a cause as dust collected on an electric light bulb may start a fire, and then an explosion. If the heat from the bulb ignites the dust, and the globe breaks. This has happened, and it gets the electric light companies to work, devising safety globes for dusty factories. Experiments testing the safety of electric light fixtures are still being conducted. A vapor-proof bulb with an unbreakable metal guard is being installed in many factories as a precaution against the danger from broken bulbs.

Some investigations are still going forward in the government, though the Bureau of Chemistry has no longer any funds to continue its work in this field. Dr. Alsberg, chief of the bureau, said at the recent conference that in spite of lack of funds his bureau would not give up the work entirely. "We always have a little money that we can squeeze out here or there," he said, "always having a little money that we can hope during the next year to be kept for the work alive and do some of the fundamental research that has to be done, so that if we are ever able to take it up again we will not have marked time."

The campaign waged by the Bureau of Chemistry, together with the Grain Corporation, has brought about greater concern on the part of the manufacturers, but explosions still occur. Since last autumn there have been several flour mill explosions, one with \$125,000 property loss, a grain elevator explosion with 11 men killed, and another with three men injured. Four flourmen, including a blaze in a spool mill, were killed last winter when spool dust exploded from the fire, and 13 other flourmen were injured.

Six Girls Killed

Most terrible of all was the aluminum dust explosion which several months ago killed six girls in the polishing room of an aluminum products factory, and burned five others so terribly that they will be scarred and injured for life. This accident seemed all the more a disaster because it was started by a piece of wire becoming tangled in the machinery for disposing of the dust from the polishing. A spark was struck and the dust ignited, causing a terrible explosion. Because of this accident, several improvements in the dust-collecting systems were suggested.

The country in general was first aroused to have a little dust may cause back in 1917. An elevator blew up, just after the United States entered the war, and enough grain was destroyed by the one explosion to have furnished bread for a year for an army of 200,000 men.

Before that, the wheat farmers of the northwest had felt the destructive force of dust in connection with threshing. The wheat smut which for the last 20 years has cut down our wheat crops was largely responsible for the outdoor wheat explosions. It is estimated that there are 240,000,000 tiny spores of the smut in one head of smutted wheat. Sometimes infected wheat is 75 percent or even more smutted; often the amount is much less, but still enough for a cloud of fine dark smut blown about in the threshing to catch a spark of static electricity in the machinery and produce an explosion.

When the cause of the frequent explosions began to be understood, attempts were made to ground the threshing machines with wires to prevent static electricity. Then a fan was devised to blow or suck the dust away from the machine. The Department of Agriculture says that it has never heard of any serious explosion occurring where one of these fans was prop-

Q. Is the \$10 passport fee imposed by Act of Congress, or by a ruling of the State Department? P. J. S.

A. The State Department says that the \$10 passport fee is provided for by an Act of Congress, which originated in that body.

Q. What is the difference between "perspire" and "transpire"? M. E. R.

A. In physiology, the two words have a similar meaning, in fact "perspire" is given us a synonym for "transpire." The term "perspire" is applied to human beings, whereas "transpire" is used mainly in reference to plants. "To perspire" is to exude a fluid matter through the pores of the skin, "to transpire" is to exude water vapor, as from the tips of plants.

Q. What is the coldest time of the year? Is this time colder in the country than in the city? G. E. T.

A. The Weather Bureau says that the coldest time, in the 24 hours is usually during the night, owing to the absence of buildings, pavements, smoke, etc.

Q. How old was George Washington when he became President? Were his parents American? A. A. D.

A. Our first President was 57 years of age when he took the oath of office. His parents were born in America. John Washington, grandfather of George Washington, was born in England.

Q. What is the origin of the term "Indian Summer"? M. E. R.

A. There has been considerable difference of opinion regarding the origin of the term Indian Summer. One of the most plausible explanations is as follows: During the Indian Wars, the attacks of the Indians on the pioneers started considerably during the winter months, and they accordingly felt reasonably safe when winter once set in. Then when there were two or three weeks of very mild weather following the first cold spells, the Indians had another opportunity to make an attack.

Q. How can black walnut stain be removed? D. E. R.

A. The Department of Agriculture says that concentrated soap solution, prepared by shaking about one ounce of laundry soap into one pint of hot water, will remove fresh stains of fruit, cotton and linen, if they are boiled in it. If the stain is old, use javelle water diluted with equal parts of hot water. Soak stain for 1-2 hours in solution, rinse thoroughly, treat with dilute oxalic acid, and rinse again.

New-York - Day-By-Day

BY G. & M. MONTGOMERY

NEW YORK, Nov. 8.—Fifth Avenue have presented attractions for the first time in the world's brightest thoroughfare, time on Broadway and such has been its gay, dignified and colorful, successful. Most young producers equipped with the most expensively fashioned motors, its pavements teeming with the best dressed men and women, it moves in starts and jerks by green-faced traffic men who from high towers every few blocks apart flash their piercing lights of yellow, red and green.

Dull is the imagination of any person who walks on Fifth Avenue at the full tide of traffic without feeling the thrill of the city's greatness. It is Fifth Avenue that wins the stranger, the lure that lures many a desire to try the luck of the city.

A few years ago they stood away sections on each side of the east or west side of the city, and to the terror of millionaires took away their fine entrances.

And yet the glory of Fifth Avenue is being threatened by the brush of trade. It has marched steadily northward, Helen Gould's house is about the only dwelling left between Forty-second street and Fifth. Ten office buildings are now being built where homes formerly stood a year ago in the same section.

A clock and sock house announces that it will erect a building in the center of Millionaire's Row. W. C. Whitney's house has been torn down and a skyscraper is being erected there. The Oelrich home now houses a banking institution.

A chain of cigar stores has secured two prominent corners in the residential district. Two years ago a five and ten cent store opened across from the public library and there is talk of a moving picture palace in the Fifties. Five more years and Fifth Avenue will be very much like Broadway.

This has been a notable theatrical season for producing young producers. Three young men—one only recently in head office boy in a theatrical office.

Help me in all the work I do, To be free and sincere and true. And know that all I do for you, Must needs be done for—OTHERS.

Let "SELF" be crucified and slain, And buried deep; and all in vain May efforts be to rise again, Unless to the love—OTHERS.

And when my work on earth is done, And my new work in heaven's begun, May I forget the crowd I've won, While thinking still of—OTHERS.

Others, Lord, yes, others, Let this my motto be, Help me to live for others, That I may live like thee.

OUTBREAKS IN MINGO COUNTY PALMER SCORED BY U. S. JUDGE

DISORDERS BREAK OUT IN WEST VIRGINIA AFTER FEDERAL TROOPS LEAVE

WILLIAMSON, W. VA., Nov. 9.—Three shooting affrays, including two attacks upon mining properties and an attempt to dynamite a mine trolley, have kept state troops busy in the Mingo county coal strike zone within a period of eighteen hours, according to authorities here today. Two of the attacks were carried out by parties of unidentified men late today.

Violence in the strike region practically disappeared while federal troops had charge of the situation. The first act of violence since they left the district occurred last night when a dynamite explosion damaged the tipple of the Thacker Coal Mining Company at Rose Sidling, twelve miles from here, and today a party of men hiding in the brush on the Kentucky side of the river started firing into the camps of the Thacker Company. The second attack of the day was directed from the West Virginia side of the river and was directed at employees of the Borden Coal Company at work on the Kentucky side. No one was injured.

Four Billion Dollars Will Be Needed To Run National Government Next Year

WASHINGTON, Nov. 9.—Estimated appropriations for the first fiscal year of the new Republican administration are now being prepared by the various government departments under the direction of Democratic cabinet members and in accord with the policies of the Wilson administration. The estimated total will be submitted to Congress at the next session on December 6. Since the Republicans have a majority in both the senate and house, sharp changes are expected to be made in most of the estimates under revision plans which Republican congressional leaders are expected to work out in cooperation with other leaders of the Harding administration which takes office on March 4.

The present political situation with regard to the annual appropriations is similar to that which obtained eight years ago after the first election of Woodrow Wilson but the economic situation in the country was vastly different. At that time the Republicans were in control of the legislative branches of the government under President Taft, but the Democrats had a majority in both senate and house.

At that time, however, conditions in the nation and the world generally were normal and government expenditures were only a fourth of what they are at this time.

The forthcoming estimates for the war department will be based upon the requirements of an army the size of which already has been fixed by the Republican congress, but the naval estimates to be submitted next month will be based on the Democratic program. Secretary Daniels has repeatedly said that unless the United States became a member of the league of nations, it must maintain the most powerful navy in the world.

BIG DROP IN PRICE OF MEN'S CLOTHING IN SPRING PREDICTED

CHICAGO, November 9.—Men's clothing for immediate delivery was offered today at prices ten to fifty percent below present wholesale prices. Goods for spring and summer delivery were shown at prices ten to 15 percent under those of a year ago, and men's shirts and similar articles were shown at greatly reduced prices at the opening of the thirteenth semi-annual buying convention of the United National Clothiers. The convention is being attended by retail clothing dealers from seven northern middle western and western states, and has taken the form of a huge display of made up garments.

"The public is not buying, manufacturers and dealers are overstocked," said W. L. Mohr, treasurer and general manager of the association today.

"The price must come down. We have passed the peak in high prices of wearing apparel. Men's clothing will be considerably cheaper from now, the retailer can afford to sell at less for his costs are becoming lower."

"Here are some men's shirts," he said, indicating an exhibition, "which wholesaled at \$15 a dozen a few months ago, now they are offered at \$16.50 a dozen. Here are 2,000 suits offered at \$16.50, suits that ordinarily wholesaled at \$45.70. The age of extravagance has passed, and rather than let the goods rot on the shelves, the manufacturers are getting what they can get out of them."

COLD WAVE WARNING

WASHINGTON, D. C., November 9.—Cold wave warnings for Michigan, Indiana, Kentucky, Tennessee and Western Ohio were issued today by the weather bureau. Much colder weather tomorrow throughout the eastern states, also was forecast. The cold wave is following a disturbance of marked intensity which was central this morning over Lake Huron and which was moving eastward rapidly.

Storm warnings are displayed at all points on the Great Lakes.

Farmers Break Crop Records

WASHINGTON, Nov. 9.—American farmers broke production records of five crops this year. Preliminary estimates announced today by the department of agriculture show the corn, tobacco, rice, sweet potatoes and pear crops surpassed in size those of many previous years in the country's history. In addition every large crop of oats, barley, rye, potatoes, apples and hay, were grown.

650 CASES OF TYPHOID IN OHIO TOWN

ALLIANCE, O., Nov. 9.—A careful survey of the situation made at Salem, last evening, brings the total number of persons stricken with typhoid fever in the village at that place up to 650 well defined cases. Others, to a large number, are ill, suffering from a mild form of the disease.

The number of patients has taxed hospital facilities in Salem to the limit, and today several will be taken to the St. Elizabeth hospital in Youngstown.

It is estimated that within the past 24 hours fifty new cases have developed, despite the fact that the citizens have been warned to boil all drinking water at least forty minutes. Nine deaths have occurred to date, and a score or more are regarded by the attending physicians as being critically ill. Those who are investigating conditions in Salem are inclined to the belief that the scourge is due to sewage leakage into the water system at some obscure point.

Mr. M. McFarland, secretary of the Manufacturers' Association of Salem, has been placed in charge and with a number of assistants, is giving his entire time in trying to care for those who have been stricken with the scourge. Additional nurses have been called for, the number in attendance being inadequate.

Farm Bureau Agents Meet

COLUMBUS, O., Nov. 9.—Publicity, uniformity of organization and dairymen are among the subjects to be discussed today at the Mid-West Farm Bureau Federation conference which, it is expected, will be attended by representatives from twelve middle western states. J. W. Covensale, Chicago, secretary of the American Farm Bureau Federation, will be the principal speaker.

The Ohio Grain Dealers' Association also meets here today and will hold informal discussions of crops, plans for handling them, price questions and problems of car supply and transportation.

Says Attorney General's Action Strongly Close To Compounding A Felony

INDIANAPOLIS, IND., Nov. 9.—Attorney General Palmer's ordering the government evidence to be used in the soft coal conspiracy cases against 126 operators and miners in Indiana, Illinois, Ohio and Western Pennsylvania, were criticized by Federal Judge Anderson of the United States District Court here today as being "strangely close to the compounding of a felony" and also "dangerously near contempt of court."

Trial of the cases was scheduled to begin today but government counsel said it was not ready to proceed. Before granting the continuance asked by the government, Judge Anderson undertook an investigation of the attorney general's order regarding the cases ending with his criticism of Mr. Palmer's conduct.

The court set next January 10th as the date for calling the trial on, announcing that the continuance "will give us time to get our bearings and at least find out whether we are to govern by law or by persons. Once before the judge had declared that Mr. Palmer's attitude in the cases was that of 'personal government, not government by law.'"

HOUSE FALLS ON TWO MEN; ONE MAY DIE

GEESER SERENADE CITY; WINTER COMING

Winter is on the way. It is right around the corner if you would believe the goosebumps weather prophet. Why?

Because a flock of wild geese passed over the city last night the prediction was freely made that winter would arrive hurriedly and without any trills.

The quacking geese were heard by hundreds of people as they circled over the city for an hour before heading for the hazy South.

The program for the big meeting of farmers calls for a morning business session at the court house, followed by a free lunch for members at the U. B. church and an afternoon speaking session in the church basement.

Only a small number of replies have been received so far and close to 500 cards were sent out from the County Agent's office.

Death last night at 8:30 claimed John S. Newman, Sr., one of the city's best known and most highly respected citizens. He passed away at the funeral home, 300 Ninth street.

He had been in poor health for five years, but the immediate cause of death was diabetes.

Mr. Newman was for many years engaged in the feed business on Gallia street near Gay and just recently sold his business block to George Abend. He had for several years only been able to devote part of his time to his business, which was looked after by his only son, John Newman, Jr.

Mr. Newman, who was 65 years old, at one time was connected with the Andrews Engineering firm, which was located on Fourth street, where the Gehrs will now stand. Later on he entered the feed business and was engaged in it many years. He was a splendid citizen, progressive and law abiding and the news of his passing away will be learned with genuine sorrow.

In addition to his son, John, he is survived by his faithful wife, Mrs. Emma Newman. Mr. Newman was a member of the Haru Gari Lodge of this city.

HOUSTON, Nov. 9.—Edward Harmon, aged 28, was perhaps fatally injured and Edward Elkins, 45, possibly killed in an unusual accident at Forestdale, back of Coal Grove, Monday afternoon. Harmon was taken to the Marring Hospital after first aid treatment by Dr. Campbell of Coal Grove and was reported last night in a very critical condition, but Elkins was able to go home. Both live in the neighborhood of where the accident occurred.

The two men and Harmon's father were engaged in raising Elkins' house and had the structure raised several feet with jacks. Edward Harmon and Elkins were under it when the jacks slipped and the house toppled over. Harmon was caught beneath one of the sleepers and his breast was terribly crushed, a number of ribs being broken. Elkins was caught in a sleeping position and was finally held by the weight of the house by the fact that his heel was caught under a sleeper.

Deputy Sheriff Charles Hunt and Harold Dremmer happened by in a few minutes after the accident occurred and found women screaming and men in a state of panic with the two men pinned under the weight of the house. These two men and others at once got busy with the jacks and raised the house sufficiently to release Harmon, but to extricate Elkins it was found necessary to saw out a section of the floor of the house.

"Honesty is not only the best policy but it is the only policy," was one of the cardinal principles by which he ran his business. He was very successful and about a year ago retired to enjoy the fruits of his many years of hard work.

In addition to his son, John, he is survived by his faithful wife, Mrs. Emma Newman. Mr. Newman was a member of the Haru Gari Lodge of this city.

Girl Swallows Poison To Avoid Punishment

In order to work on her father's stomach and in this way avoid a threatened punishment for a childish offense committed earlier in the day, Yvonne Morgan, nine year old daughter of Mr. and Mrs. George P. Morgan of 4004 Rhodes avenue, New Boston, took about a spoonful of a mixture made up of half parts of carbolic acid and creosote about six o'clock Monday evening.

The child found the bottle of poison in a bookcase where it had been left by a domestic who bought the mixture sometime ago for toothache.

In the afternoon Mr. Morgan had taken the girl to task for misbehavior and he had threatened to punish her later in the day. In order to avoid the punishment the child got hold of the acid and swallowed about a spoonful.

She started screaming when the acid burned her mouth and throat and her parents rushed to her side. She was unable to tell what had happened and the parents took her at once to the office of Dr. W. G. Cheney, where the Fisher solution was administered and a stomach pump was used, the poison being removed before it could do much harm.

The child's mouth and tongue were severely burned by the acid.

Late last night the child was much better and was sorry she had attempted to avoid punishment in the manner in which she did for she probably suffered more through her act of drinking the poison solution than if she had submitted to the punishment that was to be administered by her father.

Local Game Protector Frank D. Voorheis and a number of local sportsmen, several of whom loaned the use of their trucks, assisted in distributing the fish in the stream.
